

# A New Year, A New Decade

*Thursday, January 9, 2020*

Happy 2020 everyone! As we leave one decade and enter another, we are reminded of the importance of standing together in moments of crisis. Just like 10 years ago when the world woke up to hear of a powerful earthquake which destroyed a great portion of Haiti. Many around the world came together in support of Haiti.

Today, we know the situation has not improved much with many other factors hindering the progress of this poor nation. Indeed not just the NPH Haiti home, but all of the nine homes of Nuestros Pequeños Hermanos are suffering through two years of weakened funds provided for them. Budgets are decreasing, jobs are lost, children lose services. If we can see it in our hearts to give a little extra to Haiti or any of these homes, the children of the future will certainly appreciate it.
