2021 & 2022 - expansion of programs to include other parts of the world – including **Canada** – where all too often, children are struggling in extreme conditions

FOTOCAN: RAISING CHILDREN. TRANSFORMING LIVES.

Every child at a FOTOCAN supported home becomes a part of a **forever-family** – often for the first time in his or her life.

These children have been **through more hardship in their young lives** than most of us could imagine enduring over a lifetime.

They have been **orphaned, abused, or shuffled** from one family member to another, until they reach our doors.

This entrance is a new beginning for all of them - a beginning to a world of stability and care.
It ends the cycle of abuse and despair.

Each home provides food, clothing, shelter, medical care, and education in the child's own language and culture.

With love, security and the essentials to healthy and happy growth, each child can truly call this, their home - **their forever-home.**

FOTOCAN: *EVERY CHILD NEEDS A FUTURE TO LOOK FORWARD TO*

When they arrive in our homes, it **becomes their home** until they are grown and ready to launch their life as an adult. *The children are not up for adoption.*

Empowered to **break the cycle of poverty** that often leads to more abandoned children, these young people grow up to contribute to a more equitable, caring society for current and future generations.

Before leaving their home, young adults **give back** with a year of service often working in a home to support the next generation of kids to help them grow and become independent.

Our programs prepare children on their journey to adulthood for further education, gainful employment, and a meaningful life.

FRIENDS OF THE ORPHANS CANADA - Changing the World ... One Child at a Time

FOTOCAN helps give every abandoned child a permanent home and a forever-family – often for the first time in his or her life. **Please Help Us Welcome Them Home!**

The Forever Home Fund

The ongoing pandemic has made the need for support
even more urgent.

COVID-19 cases are still climbing in Latin America and Haiti,
with no end in sight.

Political unrest, poverty, homelessness, and insufficient medical assistance
in the developing countries FOTOCAN serves
make our homes particularly vulnerable.
